No, OAQPS is still weighing options for a “net present value” analysis. I’m not sure the details, but I have asked them to make a decision and get back to us this afternoon. This will likely set agency policy on the topic, so they are in extended internal discussion. Also, we received additional comments from OP on our EJ section. Victoria is not in until tomorrow – so at this point, our revised goal is send the package to OP Friday afternoon (with RIA, updated FR notice, and ROCIS form). I will be out of the office, but I let Claudia know that if everything has been signed off by OAQPS and OP, that she can forward to OP. Are you okay with that plan?

Just curious, did the FIP move back to OP yesterday? Thanks, Dee
